Animals Diverted From Shelter-  
 animals who we were able to  
 keep out of shelter by returning  
 them home in the field.

\*Total animal intake excludes disposal request and animal dropped of for medical services

\*Live Release Rate reflect a rolling 12-month measure, calculated by live outcomes (adoptions, return to owner, transferred out, returned to home) divided by total outcomes (live outcomes + died & lost in care, shelter euthanasia, does not include owner requested euthanasia) For more detailed stats, download this PDF in Adobe and click here.

\*TNR (Trap Neuter Return)-This program allows community and feral cats to continue to live their lives outdoors. These cats are vaccinated, ear-tipped, altered and released.
